SPECIALTY SERVICES – QUESTIONS & ANSWERS

Storm Sewer Video Inspection and Cleaning

Question 1: Do you have mile markers associated with each location? Do you know how many separated culverts/drains or pipes are slatted for each area? What are the associated sizes of pipe for each area? Do the lines run parallel as well as under the roadway? Are any of the drains located on clover leaf exits? Are the lines marked for location along the roadway?

Answer 1: **Information on specific size, types, or locations is not available. Please reference the Control Section Maps and ROW of Maps for more information:**
